WE'LL HELP YOU SAVE \$750 ON A HYBRID WATER HEATER

Use the Attached Mail-in Rebate Form to Save

Compared to a standard electric water heater, an ENERGY STAR certified hybrid water heater (also known as an electric heat pump water heater) can help you save about \$350 per year on energy costs for a typical household.

Although an ENERGY STAR model may cost more upfront, the energy savings add up quickly. In about two years or less, you'll save enough in reduced energy use to cover the cost of the difference. And, you'll continue to save over the life of the appliance.*

Not all water heaters qualify for a rebate. Visit atlanticcityelectric.com/ApplianceRebates to determine which models qualify.

Eligibility

- Offer open to all Atlantic City Electric New Jersey residential customers. Limit one certified hybrid water heater rebate per Atlantic City Electric residential account on rebates submitted between July 1, 2021, and June 30, 2024.
- Rebate is not available if Atlantic City Electric distributor discount has already been received on the unit.
- Rebate application must be accompanied by proof of purchase including a copy of the dated sales receipt with model number.
- Certified hybrid water heater must be a new appliance.
- Rebate application must be submitted within 90 days from purchase date and postmarked by July 15, 2024.
- Details such as rebate amounts and eligible appliances are subject to change at any time.
- The rebate paid will not exceed the purchase price of the product.

Installation Considerations

Hybrid water heaters have unique requirements in terms of placement and available space compared to a conventional electric resistance unit. Visit energystar.gov for a list of considerations to take into account before making your purchase.
