

Want to start saving energy but not sure where to begin?

Zoe recommends a **Quick Home Energy Check-up.**

With our Quick Home Energy Check-up program, you can discover how your home uses energy—and how to make easy changes that save both energy and money.

It's simple to get started.

Request an appointment to meet with a certified Energy Analyst at your home. In about an hour, they will:

Inspect your home's heating and cooling systems, windows, doors, and more, and look for ways to improve their efficiency

Provide a report listing recommended energy-saving changes

Install energy-saving products at no cost to immediately make your home more efficient

Prefer a virtual visit? We've got you covered.

Virtual Home Energy Check-ups offer another way to save. You will meet with a certified Energy Analyst over the phone or via video chat. Then, we will mail your no-cost energy-saving products to your home. Easy, right?

Meet Zoe, your **Good Energy Guide.**

Maybe your kids leave the lights on. Or maybe you've squabbled over the temperature setting on the thermostat. Or maybe you want to save energy but just don't know where to begin. Not to worry—Zoe's here to help. As Atlantic City Electric's Good Energy Guide, she knows how to save energy and money around your home.

Discover all the ways you can save at atlanticcityelectric.com/SaveEnergy.

With a Quick Home Energy Check-up, you could receive these energy-saving products, installed at no cost to you:

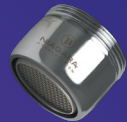

ENERGY STAR® certified LED bulbs

Smart power strips

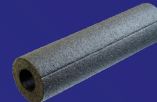

ENERGY STAR certified smart thermostats*

Faucet aerators

Efficient-flow showerheads

Water heater pipe insulation

ShowerStart® TSV

*The Quick Home Energy Check-up program customizes energy efficiency recommendations and measures to each individual's home. The energy-saving products offered apply to the specific needs of each house, and as a result, not every customer will receive every product.

Typical recommendations

To further improve your home's energy efficiency, your certified Energy Analyst will recommend energy-saving changes and applicable Atlantic City Electric programs that best fit your needs. Recommendations may include:

- Adding insulation to your attic
- Sealing and balancing ductwork
- Replacing heating and/or cooling systems
- Upgrading lighting and large appliances

Keep the savings going.

Your no-cost Quick Home Energy Check-up is a great way to start saving energy—but it's only the beginning. Save even more with these additional programs from Atlantic City Electric:

Home Performance with ENERGY STAR program

Get valuable rebates up to \$5,000 by making recommended energy-efficient upgrades in your home.

Appliance Recycling program

Recycle an old, working refrigerator or freezer and get \$50, plus pickup and recycling at no cost.

Appliance Rebate program

Save up to \$750 on ENERGY STAR certified products, or shop online at Atlantic City Electric's Marketplace and get instant discounts on energy-saving products.
