

Expand Your Energy Knowledge

ENERGY MANAGEMENT PROGRAM Building Operator Certification

The **Building Operator Certification (BOC) Training** offered through Atlantic City Electric's Energy Management program provides discounts for your team to complete the nationally recognized certification program. Facilities with BOC graduates have shown increased energy efficiency, reduced operating costs, and improved comfort for occupants.

The BOC curriculum includes the following courses:

- Energy Efficient Operation of Building HVAC Systems
- Measuring and Benchmarking Energy Performance
- Common Opportunities for Low-Cost Operational Improvement
- Efficient Lighting Fundamentals
- HVAC Controls Fundamentals
- Indoor Environmental Quality

Training Discounts

We'll discount your cost by **\$1,000**, which covers **over 50% of the price** for the BOC training.

Savings at a Glance*

Last year's average energy reduction:

96,240 kWh

Average savings for the past five years:

\$12,655 annually
