

Make Multifamily Building Electrification More Affordable

INCREASE YOUR PROPERTY'S VALUE WITH ENERGY-SAVING UPGRADES.

Want to improve resident comfort, energy efficiency, and environmental sustainability at your property? Our **Building Decarbonization – Multifamily program** helps reduce the cost of electrification upgrades with incentives that cover both equipment and infrastructure.

Why make the switch?

Improved property
performance

Lower
operating costs

Improved comfort
for residents

Increased
property appeal

Upgrade to high-efficiency electric equipment and save big:

- **Water Heating**
 - Up to \$2,000
- **HVAC Equipment**
 - Up to \$6,480 for common areas
 - Up to \$10,000 for in-unit spaces
- **Panel Upgrades**
 - Up to \$7,500

**Plus, reduce out-of-pocket costs
with 0% financing.**

Projects must be completed through
an approved Building Decarbonization Trade Ally.
